To whom this may concern,

This letter of recommendation is for Greg Knutson and his Handyman business located in Phoenix, AZ.

Greg was prompt, courteous and efficient starting from the free estimate given, to the final clean-up of all work. He and his assistant completed a kitchen upgrade and solved the door alignment problem in my house.

Mr. Knutson installed a new microwave oven, which required a new dedicated electrical circuit, an additional light switch and duplex and realigned the entry door to open and close correctly, all within the estimated amount and time promised.

If you have any questions or need additional information from me, do not hesitate to call or text me at 480-202-0140.

Best regards,

Gary Kabobel,  
Registered Arizona Architect since 1982
